EUCC SCHEME REVIEW

Rationale for the EUCC scheme review

Commission Implementing Regulation (EU) 2024/3144:

- ❖ Clarifying the applicable versions of the Common Criteria (CC) and Common Evaluation Methodology (CEM) standards

- ❖ Establishing transition rules to give vendors, conformity assessment bodies (CABs), and other relevant actors enough time for the necessary adjustments

- ❖ Updating the list of state-of-the-art documents

Commission Implementing Regulation (EU) 2024/3143:

- ❖ Harmonising across schemes the notification of CABs by Member States

European Commission

Applicable CC and CEM standards

CC standards

✓ISO/IEC 15408-1:2022
✓ISO/IEC 15408-2:2022
✓ISO/IEC 15408-3:2022
✓ISO/IEC 15408-4:2022
✓or ISO/IEC 15408-5:2022

Or

✓Common Criteria for Information Technology Security Evaluation, version CC:2022, Parts 1 through 5, CCRA

CEM standards

✓ISO/IEC 18045:2022

Or

✓Common Methodology for Information Technology Security Evaluation, version CEM:2022, CCRA

European Commission

Transition rules & exceptions

Transition rules

- **Until 31 December 2027**, the following CC and CEM standards may be used:

  - ✓ ISO/IEC 15408-1:2009, ISO/IEC 15408-2:2008 or ISO/IEC 15408-3:2008
  - ✓ Common Criteria for Information Technology Security Evaluation, version 3.1, revision 5, CCRA
  - ✓ ISO/IEC 18045:2008
  - ✓ Common Methodology for Information Technology Security Evaluation, revision 5, version 3.1, CCRA

Exceptions

- Protection profiles may apply older versions of CC and CEM standards if mandated by:

  - ❑ Implementing Regulation (EU) 2016/799 (tachographs)
  - ❑ Regulation (EU) No 910/2014 (eIDAS)
  - ❑ Implementing Decision (EU) 2016/650 (qualified signature and seal creation devices)

Accreditation and notification of CABs

Accreditation

- State-of-the-art (SOTA) document added to Annex I for the accreditation of certification bodies (CBs) and updated SOTA document for Information Technology Security Evaluation Facilities (ITSEFs)

Notification

- Member States to use the European Commission's tool NANDO to publish their notified CABs, as it is done already for other EU legislation

European Commission

Benefits of the review for the market

CLARITY

✓ Applicable versions of CC and CEM standards

✓ Definition of ITSEFs' scope of activities

✓ Harmonised process for notification of CABs

TRANSITION

✓ Possibility to use older versions of CC and CEM standards

✓ Clear timeframe to implement the necessary adjustments

✓ Ongoing ITSEF accreditation processes can be based on the previous version of the SOTA document

READINESS

✓ Accreditation of both CBs and ITSEFs is now possible

✓ Ease of handling of minor updates to certified products (Annex II EUCC)

European Commission

Thank you.
