

**Opinion of the European Cybersecurity Certification Group (ECCG)
on the EUCC Scheme draft state-of-the-art document**

“Accreditation of CBs for the EUCC Scheme”, version 1.6, June 2024

Adopted via written procedure on 5 July 2024

The Cybersecurity Act¹ in its Article 62(4), point (e), sets the task for the European Cybersecurity Certification Group (ECCG) to adopt opinions addressed to the Commission relating to the maintenance and review of existing European cybersecurity certifications schemes. Moreover, the European Common Criteria-based cybersecurity certification scheme (EUCC Scheme)² in its Article 48(1) and (2) tasks the ECCG with adopting opinions in view of maintaining the EUCC Scheme and to undertake the necessary preparatory works, as well as with adopting opinions endorsing state-of-the-art documents.

ENISA has drafted the EUCC Scheme draft state-of-the-art document “Accreditation of CBs for the EUCC Scheme” (version 1.6, June 2024). The draft state-of-the-art document provides an overview of requirements related to the accreditation of certification bodies (CBs). In particular, it covers the accreditation of CBs as defined under Article 2, point 12, of the EUCC Scheme.

The ECCG, composed of representatives of Member States, has been consulted and closely involved in developing this draft state-of-the-art document, therefore reflecting the opinion of the group.

The ECCG herewith endorses the EUCC Scheme draft state-of-the-art document “Accreditation of CBs for the EUCC Scheme”, version 1.6.
